

2010 Training Seminars

Get the most out of everything you do. By attending our **free†** Boiler Performance Optimization Seminar, you'll earn up to 16 CE* hours as you master the relationship between boiler efficiency and system performance, and learn how to keep everything running at its peak.

* Continuing Education hours acceptance contingent upon your local jurisdiction.

Mestek Institute – Seminar Instructors

Bob Witt, Instructor
Bob has been working in the HVAC industry for more than 40 years, specializing in the design and application of copper boilers and water heaters.

George Carney, Instructor
George has spent more than 27 years working on all aspects of hydronic heating, and has a unique understanding of the design and application of both cast-iron and oil-burning boilers.

Tom Neill, Instructor
With more than 36 years of experience in various forms of hydronic heating, Tom specializes in the training, sales and technical support for cast-iron boilers.

Sabino Piccirilli, Instructor
Sabino has more than 31 years of experience in the heating industry, including mechanical sales and service, installation and application engineering.

Joe Stagg, Instructor
Joe has 13+ years of experience selling and servicing HVAC equipment, using the last 6 years to speak to and train industry members.

Agenda

Boiler Performance Optimization

Day One

8:00 Boiler Operation: Boiler Types and Efficiencies
10:00 Boiler Operation: Boiler Turndown Limitation
12:00 Lunch
1:00 Optimal Performance: Cycle Efficiency and System Variables
2:00 Optimal Performance: Piping Systems
4:00 Workshop: Boiler Sizing, Selection and Application
5:00 Dinner

Day Two

8:00 Introducing Mestek: Experience Based Innovation
8:30 Boilers and Water Heaters: Theory, Features and Design
10:00 HeatNet® Integrated Controls with Hands-On Tutorial
12:00 Lunch
1:00 Venting and Start-Up
2:00 Combustion
3:00 Water Flow/Quality
4:00 Hands-On Start-Up Procedure
5:00 Dinner

Day Three

8:00 Overview: Mestek Distributor Products Group
10:00 Factory Tour
12:00 Departure

Register online today!

Maximize your time, energy, and understanding of high-efficiency boiler systems. For additional information and to register online:

If you have any questions, please call Janine Pedro at 413-564-5779.

Feb. 23-25 Pennsylvania	April 20-22 Ontario	June 22-24 Pennsylvania	Sept. 14-16 Ontario	Oct. 26-28 Pennsylvania
March 9-11 Ontario	May 4-6 Pennsylvania	July 20-22 Ontario	Sept. 28-30 Pennsylvania	
March 23-25 Pennsylvania	May 18-20 Ontario	Aug. 17-19 Pennsylvania	Oct. 12-14 Ontario	

† **Note:** Includes seminar tuition plus arranged room and board; does not include transportation. Call Janine Pedro at 413-564-5779 for additional information.

**Mestek Institute**

Maximize 2010

*An invitation to tune up
your bid & spec business
and boiler system efficiency
as you earn CE* hours*

Tap into a combined 140+ years of HVAC experience—join the Mestek Institute for a free† three-day seminar on proper boiler system design and operation. Get the tools you need to ensure higher efficiency and lower operational costs:

- ◆ How simply selecting a high-efficiency boiler may not equate to performance improvement
- ◆ What effect the boiler system has on the boiler itself, and how to maximize all-around performance
- ◆ How maintaining system and boiler operational efficiency prevents premature failures
- ◆ PLUS: earn up to 16 CE* hours towards continuing education requirements during our product neutral application training
